

Project Record Form

Project Site Detail	
Project Name:	
Address:	
Contact:	Applicator:
Start date of project:	Finish date of project:
Details of substrate type, condition and areas to be coated. Check Moisture level for porous substrates:	

Primer/Basecoat Application Information			
Primer / Basecoat Name and Colour:			
Product Batch Number:			
Size of Can and Amount Purchased:			
Amount Used:		Number of Coats Applied:	
Date of Application		Wet Film Thickness:	
Substrate (i.e. wood, steel)		Surface Preparation:	
Application Method:		Thinner, and % used:	
Temperature:		Relative Humidity:	

First Coat Application Information			
First Coat Product Name and Sheen level:			
Product Batch Numbers (parts A & B):			
Application method details:			
Amount Used:		Area in m2:	
Date and time of Application:		Wet Film Thickness:	
Substrate (i.e. wood, steel)		Surface Preparation:	
Primer cure time:		Time of completion	
Temperature:		Relative Humidity:	

Second Coat Application Information			
Second Coat Product Name and Sheen level:			
Product Batch Numbers (parts A & B):			
Application method details:			
Amount Used:		Area in m2:	
Date and time of Application:		Wet Film Thickness:	
Cure Time of first coat:		Surface Preparation:	
Application Method:		Time of completion:	
Temperature:		Relative Humidity:
